

# Diagrams Game Store Project

I. ER + Table structure diagram  
Gantt diagram

II. For each person of the group :  
1) Use Case Diagram  
2) Activity Diagram  
3) Wireframe Diagram  
4) Component Diagram  
5) Sequence Diagram

## I - ER + Table structure diagram

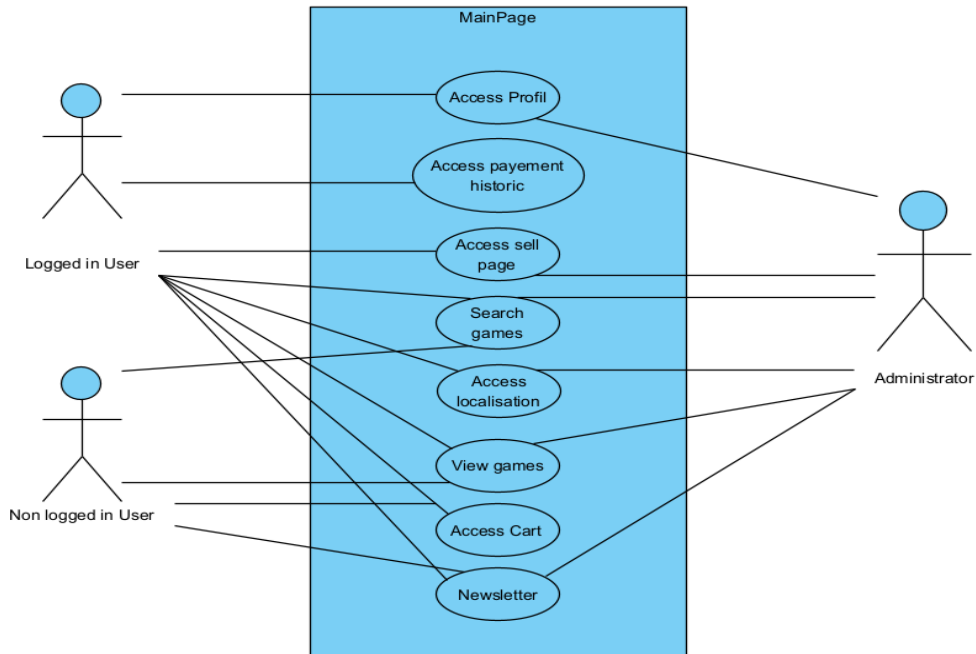

We are going to do all of these tasks together. This is our GANTT DIAGRAM :

## II- 1) Use case diagram

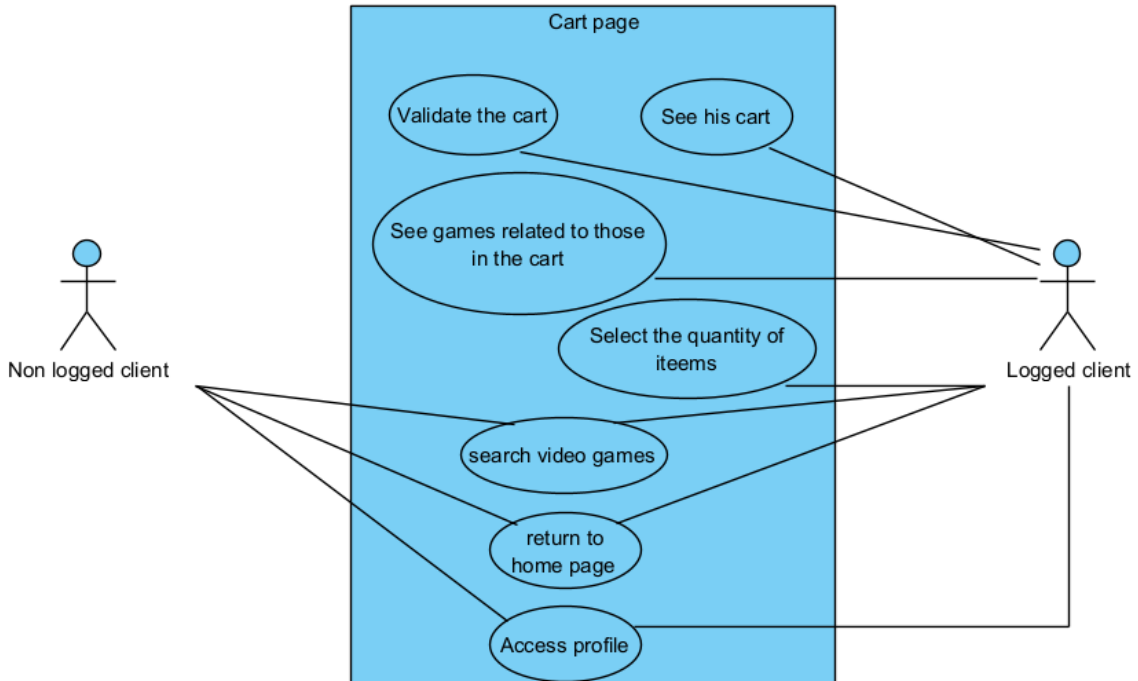

Pierre's Diagram : Case where someone access our website, shows the difference of permissions between logged in and non-logged in users

Chloé's : profil page with two cases of client (with or without account)

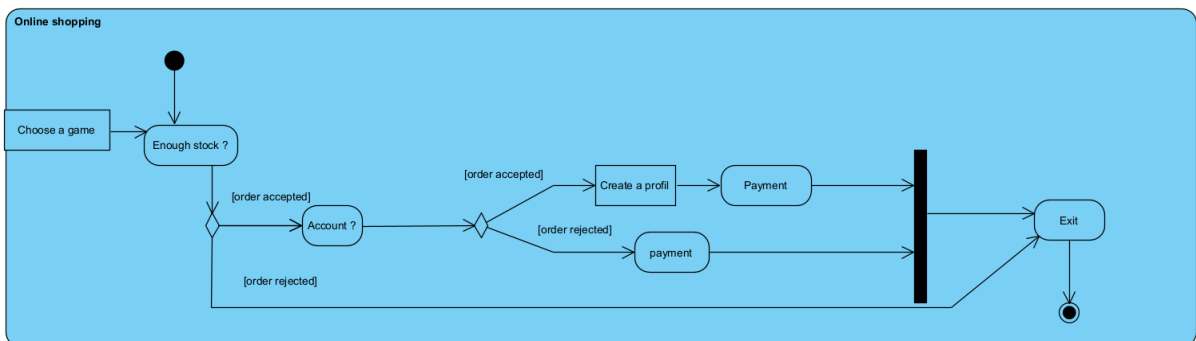

Noa : Cart page, what a person with a profile can do and what a person without a profile can do

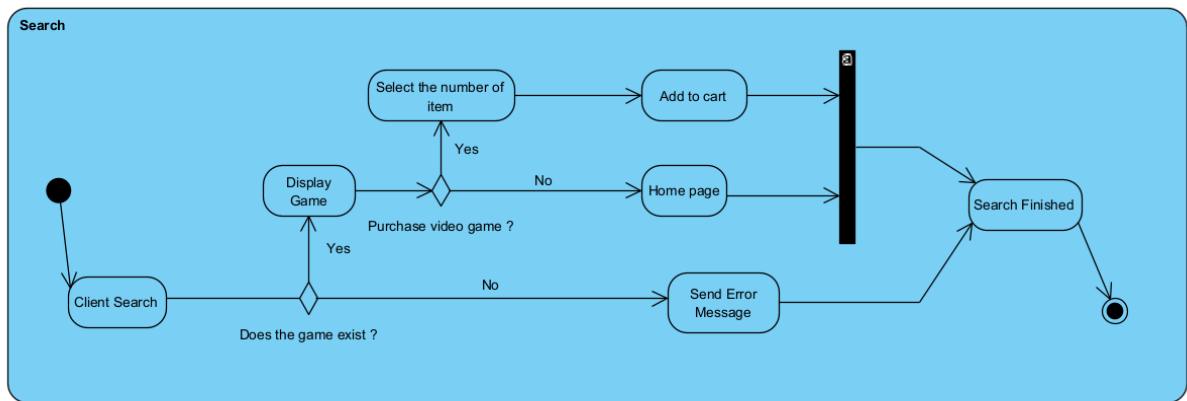

## 2) Activity Diagram :

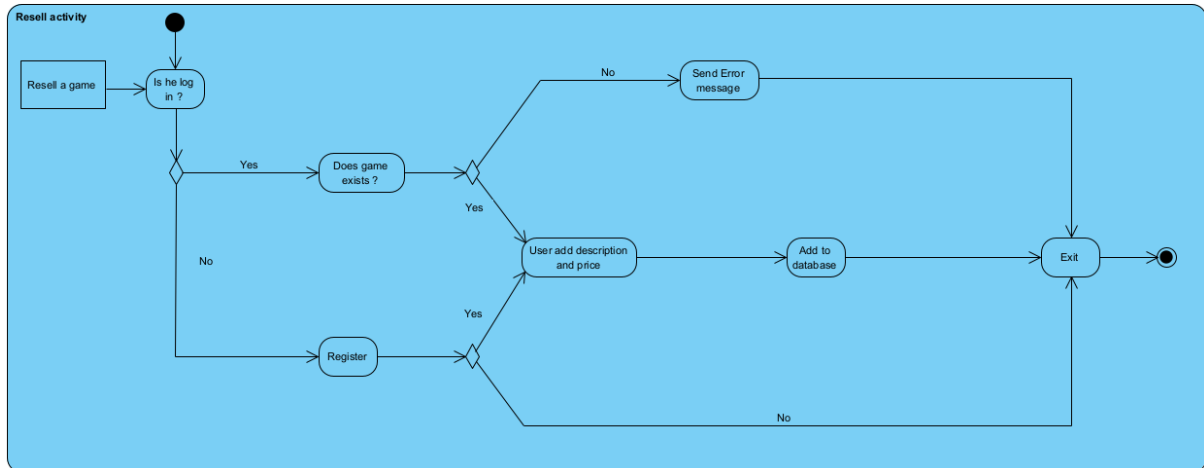

Chloé's Activity Diagram about how doing from online shopping to the payment

Noa's activity diagram about how the research works on the website

Pierre's activity diagram about someone willing to resell one of his video games

### 3) Wireframe Diagram

Chloé : diagram about creating an account on website :

The wireframe diagram illustrates a 'Create account' form. At the top, a navigation bar with a diagonal hatched background contains a menu icon, the word 'Research', and links for 'Home', 'Cart', and 'Log in'. The main heading 'Create account' is centered, followed by a link 'Already an account ? Log in'. The form consists of five vertically stacked input fields, each preceded by a label: 'Name', 'Surname', 'Age', 'Email', and 'Phone number'. Each input field is represented by a rectangular box with the text 'Input Field' inside.

Research Home Cart Log in

## Create account

Already an account ? Log in

Name

## Noa's Wireframe diagram about Cart page :

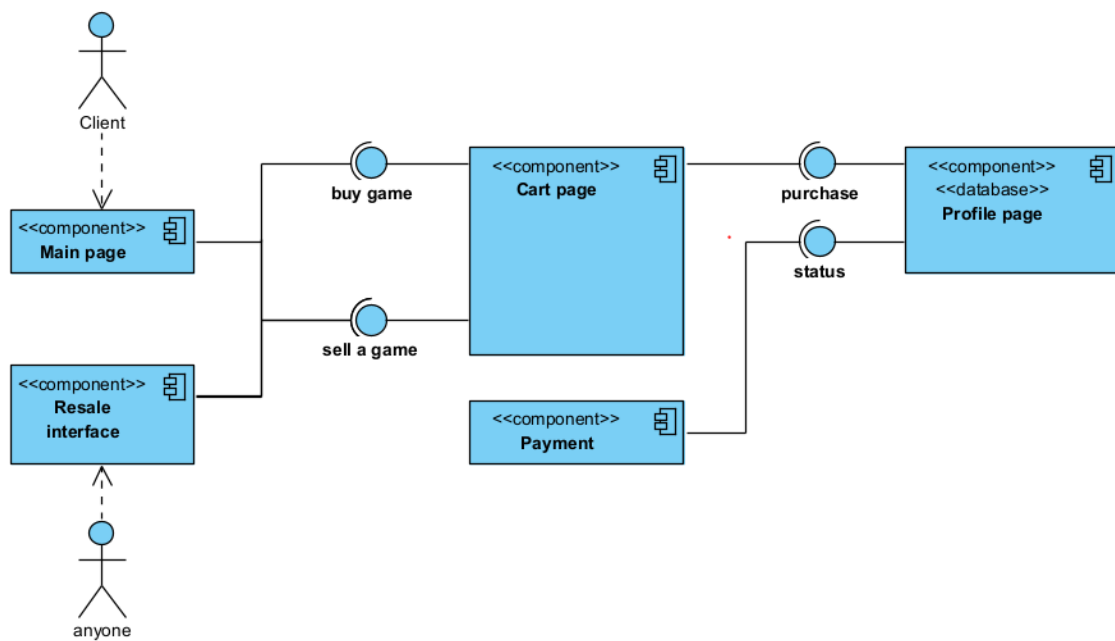

## Pierre's wireframe Diagram about Main Page

### 3) Component diagram :

Chloé's one about buying process from the main page

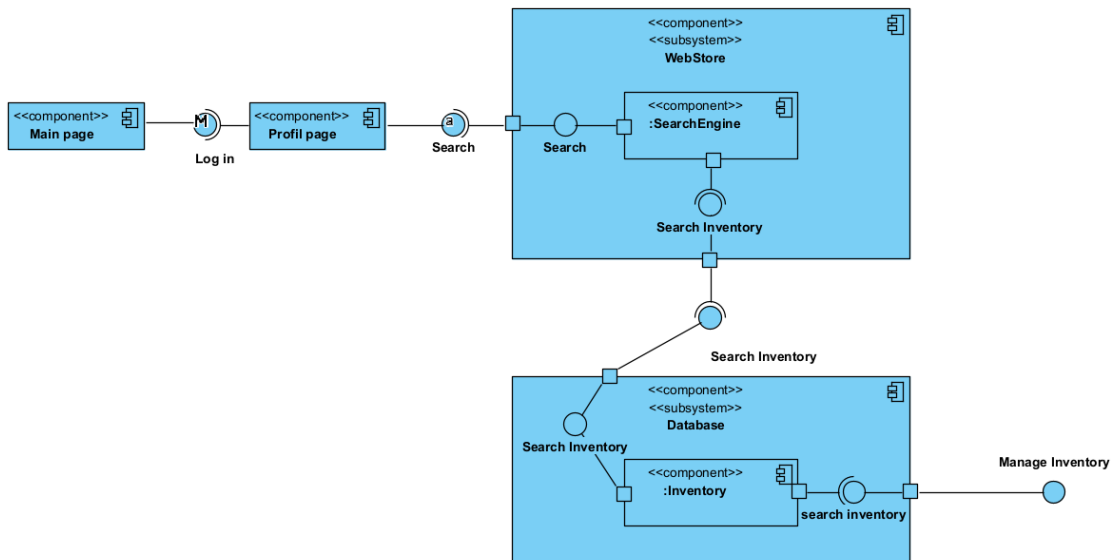

Pierre's component diagram about searching a game

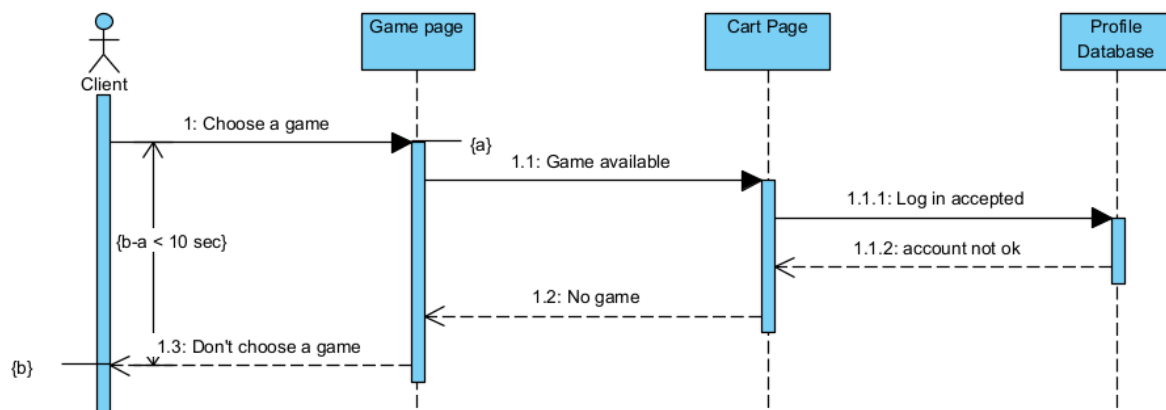

## Noa's component diagram :

You have to be registered in the profil database to be able to sell a game. So when you are logged, you just have to search if the game already exists in our database and add one in the inventory.

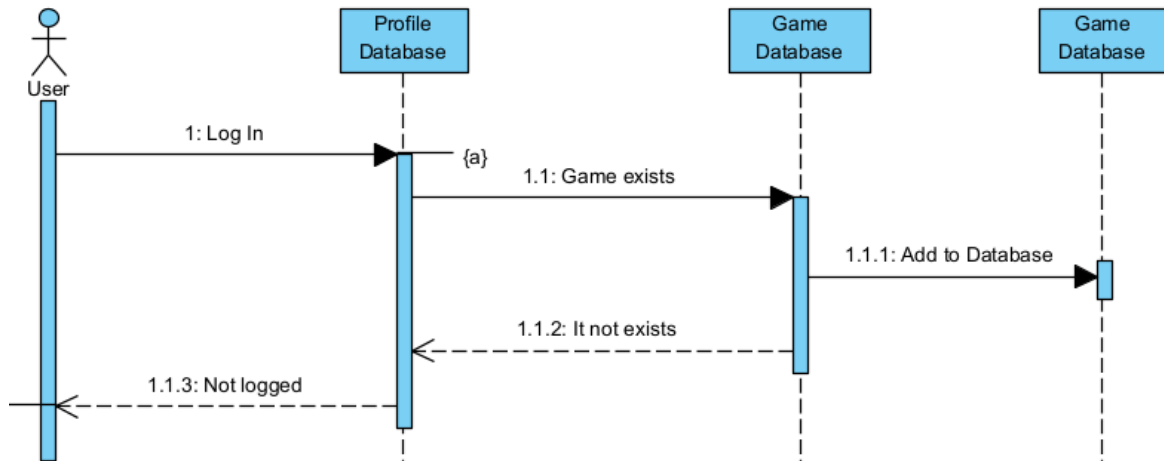

## 4) Sequence Diagram

Chloé : from game page to cart page with checking profile database

Noa : Allow clients to resell their games if they want

Pierre : Allow clients to see their previous purchases
